

# IRONSCALES Partner Program for Resellers

A powerfully simple turnkey email security solution for your customers

Phishing attacks are the biggest cyber security threat your customers are facing today. The IRONSCALES powerfully simple email security platform is the perfect addition to your security solution portfolio. Our self-learning, AI-driven email security platform continuously detects and remediates advanced threats like BEC, credential harvesting, account takeover and more in your customers' mailboxes.

## The Challenge

Your customers are overwhelmed by phishing attacks and need help. You need a turnkey solution that is fast to implement and easy to manage from a straightforward, multi-tenant dashboard. Simply put, all email security solutions are not equal, and customers using cloud-based email from providers like Microsoft and Google need a cloud-first, AI-driven email security solution to keep up with today's phishing threats.

“For us, it's important that we're selling and enabling our customers with the right products, bringing the right value, and not necessarily breaking the bank along the way. And I think IRONSCALES has been a great decision for us to go to market with our customers from that perspective.”

Leo Chavez

Founder and CEO of Enterprise It Security (EITS)

## What's in it for your CUSTOMERS?

## Why choose IRONSCALES?

1. We are fast to deploy, simple to manage and highly effective in stopping all types of email attacks
2. We deliver email security in the mailbox and defend against modern email threats
3. We integrate both email security and awareness training into a single offering

I didn't think that a solution this effective and powerful could be implemented this quickly. We started with several 10s of users, and now we're actively protecting more than 36,000, just like that. If you have any doubts that something like this can be done smoothly, don't. Just let IRONSCALES help you.

Ivan Milenkovic

*Group Information Security Director at Webhelp*
